Due Date 23/11/2012
Total Due \$95.37

Period
16/08/2012 to 31/10/2012

How is my bill calculated?

Between actual readings of your meter we will send you an estimated account. An estimated account may be slightly higher or lower than your actual usage for the period. However, your bill will be adjusted the next time your meter is read. This adjustment process ensures that you will not pay for more electricity than you actually use. Most electricity meters are read every 3 months. At Blue NRG we will also provide you a bill based on your own reading of your meter and when your actual read arrives we will adjust your bill accordingly.

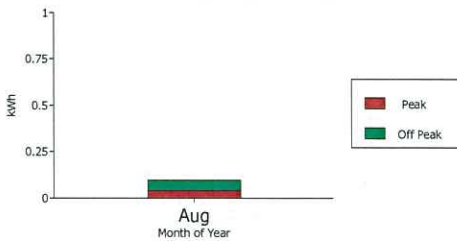

Meter Access

So that we are able to provide you with accurate account based on actual reads, please ensure that locked gates, dogs or other obstructions do not prevent access to your meter.

Complaints/Feedback

Blue NRG is pleased to help you in any matter regarding our electricity services. If you have any concerns, please call Blue NRG on 1300 599 888.

TOU - Interval Meter Consumption

Peak : 0.04 kWh

Off Peak: 0.06 kWh

This period 149 kWhs

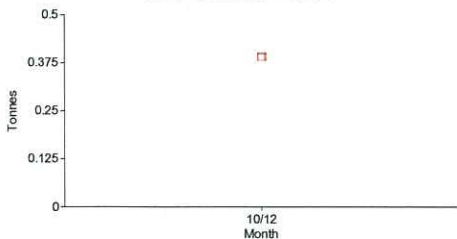

Same time last year NA

Average cost per day (incl GST) \$1.24

Consumption Starting 16/08/2012 = 1449.00 kWh

Consumption Ending 16/08/2012 = 1449.00 kWh

Greenhouse Gas Emissions

Total greenhouse gas emissions (Tonnes) this account: 0.39 For more information visit www.climatechange.gov.au
